

What is Airbrush makeup?

Well in a nut shell... A fine mist of foundation is sprayed with a small air compressor gently covering the skin, to give the appearance of a flawless complexion. This mist covers the skin lightly allowing the skin to breath, looking more natural and not exaggerating your pores. Airbrush makeup will leave your skin feeling light NOT greasy or heavy

How long will Airbrush makeup last?

Airbrush makeup covers and lasts ALL DAY LONG! One application is all it takes to have a beautiful face for your wedding prom or special occasion. Airbrush makeup is water resistant and will not smudge with light touching. It can be applied on anyone even men! Its also hypoallergenic & sanitary to use.

Benefits to Airbrush makeup at a glance:

- Flawless Finish in Person & In Photographs
